

## An Important Note Regarding Humanities and Sciences Courses

Art Center's course numbering for the Humanities and Sciences (H & S) courses have used a number of subject codes that many of us have found somewhat confusing when we first arrived. Students do not always see the logic behind the selection of the subject code.

In order to try to move closer to the subject codes that many of you may have seen at other colleges or universities, we have renamed, and renumbered, all of the courses in the H & S department.

All existing degree audits will continue to show the old course numbering in the requirements. However, all of the new courses have been set so that, when taken, they will automatically appear in your audit satisfying the old course number requirement.

Students may search for courses to satisfy uncompleted Humanities & Sciences requirements by searching by Course Types.

**Human (HMN)**

**Culture (CUL)**

**Material Environment (MAT)**

**Professional Practice (PRP)**
